

Updated Engine Illustrations

In an effort to improve the quality and usability of the U.S. Merchant Mariner Examination Illustrations, the National Maritime Center (NMC) continues to update the deck and engine illustration inventory.

[Click here](#) to view the Motor Plant Exam illustrations that contain the 16 most recently uploaded new or revised illustrations. All exam illustrations can be found through the [Exams Page](#) on the [NMC Website](#). As we move forward, illustrations on the website will be date-stamped and contain NMC headers to allow users to more readily identify new or revised illustrations and to ensure consistency. Users should check back periodically for updates.

Sincerely,

/J. P. Novotny/
